

## 4" LED Retrofit-Kit Installation Guide

MRL - 410205 and MRL - 410205B

www.maxximastyle.com

### ⚠ WARNINGS ⚠

- Risk of electric shock - Disconnect power at the source before installation.
- If you are unsure about the installation or the maintenance of the fixture, please consult an electrician.
- Do not make or alter any holes in the wiring enclosure or modify any electrical componentry.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.

### CAUTIONS

- The fixture must be wired in accordance with the National Electric Code (N.E.C) standards and any applicable local codes or ordinances.
- This fixture is not compatible with photo controls, occupancy sensors, or timing devices.
- This fixture is designed for use with 120Vac, 50/60Hz only.
- The retrofit kit is accepted as a component of a luminaire where the suitability of the combination shall be determined by CSA or authorities having jurisdiction.

#### Electrical Parameters:

Model	Input Voltage	Input Frequency	Input Current	Input Wattage
MRL-410205	120 VAC	60 Hz	70mA	10W

#### Product Dimensions:

## INSTALLATION INSTRUCTIONS

1. Ensure the power has been turned off by switching the circuit breaker to the off position or by removing the fuse from the fuse panel.
2. If replacing an existing fixture remove and disconnect the existing fixture from the housing.
3. Select the desired color temperature by moving the selector switch shown in figure 1.
4. Twist the E26 adapter into the housing as shown in figure 2.
5. Connect the orange connector to the E26 adapter as shown in figure 3.
6. Ensure the three spring clips are within the 4" housing and that the supply wires will not get pinched.
7. With the three spring clips in position push the fixture up until flush with ceiling as shown in figure 4.
8. Restore power and the light is now operational.
