

Round Anti-Glare Retrofit Downlight Installation Guide

MRL-61505, MRL-61505B

www.maxximastyle.com

WARNINGS

- Risk of fire or electric shock.
- If you are unfamiliar with electrical installations, consult a qualified electrician before proceeding.
- Turn power off from electrical panel before installation or maintenance.
- Do not make or alter any holes in the wiring enclosure or modify any electrical components.

CAUTIONS

- Intended for installation in accordance with local codes and the National Electric Code (NEC).
- This fixture is designed for use with 120VAC, 50/60Hz only.
- Lamp compartment dimensions: D5.5 inch x H7.5 inch.
- Supply conductors must be rated for at least 90°C/194°F.
- Covered ceiling mount only.
- Suitable for damp locations.

INSTRUCTIONS

1. Ensure that power has been turned off by switching the circuit breaker or by removing the fuse from the fuse panel.
2. If replacing a previous fixture, remove that fixture and ensure recessed depth is of the appropriate height, at least 4.75".
3. Preview and select the desired color temperature using CCT switch, see figure 1.
4. Screw E26 adapter into the housing socket, see figure 2.
5. Connect the orange connector to the E26 bulb as shown in figure 3.
6. Squeeze torsion spring arms and install into the spring brackets within the housing, as seen in figure 4.
8. With the torsion springs in position, tuck all remaining wire into housing and push the fixture into the housing until flush with ceiling, see figure 5.
9. Installation is now complete. Restore power and the light is not operational.
